Care Management

Care management is the coordination and scheduling of your care and services. It includes items such as; setting up services in a way that help you achieve your goals and within your budget, checking that these services are working for you in the way it was intended, making referrals and coordinating new services as required should your health or circumstances change, and helping with the coordination of services and communication between different health professionals that may be involved in your care.

Approach to care management		Our care management approach is health professional led. This means that health professionals like nurses are involved in making sure your care and services are planned in a way that supports your health and wellbeing. This is particularly important if there are changes to your health or circumstances. Our care management health professionals are there to provide you with information and advice to support you make informed choices about your care and services.
