

## Resident Outing Management Plan

Southern Cross Care Residential Care Homes in SA and the NT

### Low Risk Outing

#### Definition

Outings to a family home or a medical setting (e.g. hospitals, GP clinics)

#### Requirements

- Resident to undergo COVID-19 screening on return, including Rapid Antigen Test (RAT)
- Daily symptom check for 7 days after return
- If any symptoms develop, resident to isolate and undergo a PCR COVID-19 test

### Medium-High Risk Outing

#### Definition

Outings other than those described above as low risk (e.g. large gatherings, public venues, shopping centres, cafes)

#### Requirements

- Resident to undergo COVID-19 screening on return - including Rapid Antigen Test (RAT)
- Second RAT on day 2 after return
- Daily symptom check for 7 days after return
- If any symptoms develop, resident to isolate and undergo a PCR COVID-19 test

For any enquiries about the definitions or requirements outlined above, please speak with management at your local Residential Care home.
